Exceptional Cognitive Talent & Genius Grants [1]

Description:
The Foundation offers grants in support of research and public engagement in our major Funding Areas. We invest in bold ideas from contrarian thinkers — ideas that cross disciplinary boundaries and challenge conventional assumptions. And we fund innovative programs that engage the public with these ideas, in an effort to open minds, deepen understanding, and inspire curiosity.

Throughout history, the insights and ideas of a relatively small number of individuals account for many of the most dramatic cultural, scientific, and technological advances. Sir John Templeton saw the potential for truly exceptional, "one-in-a-million" cognitive geniuses to bring about transformative benefits for humanity.

The Exceptional Cognitive Talent & Genius Funding Area supports programs that aim to recognize and nurture exceptional cognitive talent, especially for those at an early stage of life. This Funding Area also supports research concerning the nature of cognitive genius, including extraordinary creativity, curiosity, and imagination.

Sponsor: John Templeton Foundation

Funding amount:
Sponsor deadline: Friday, August 16, 2019

Other information:
The Foundation generally funds specific projects and favors proposals where the applicant has sought or secured partial funding from other sources.

RODA ID: 546
